Gas Detection System 2 Zone Conventional Gas Detection System

Model : GDS-2

2 Zone Conventional Gas Detection System (Family-Gas)

GDS-2 zone conventional gas

detection System protects home as well as commercial premises

- Two-zone gas detection system is capable of monitoring gas detection devices, like as gas detectors & providing alarm.
- The detector goes into alarm condition due to gas or heat detection. Early gas detection depends o...

Gas Detection System TrueSafe Industrial Gas Leak Detector for Hydrogen

Product Description: TS211-CAT

Model TrueSafe TS211-CAT gas detector is used to detect natural

gas, LPG, coal gas, alkane, combustible gas, and gasoline, Alcohol, ketone, benzene etc., organic solvent as well

as Hydrogen gas. Application area of this detector is in Automotive, Medical, Refineries and Petrochemical Plants, Oil and Gas, LPG station, Chemical and Pharma Industr...

Honeywell Gasalert MAX XT II Multi Gas Detector with In Built Pump

Honeywell BW™ Solo
Serviceable Single-gas Detector

The easiest single-gas detector to service, with no need to take it apart to replace sensors, batteries and sensor filters. That means long life and low cost.

- Complete with an extensive selection of sensor options. Count on comprehensive detection, whether you're monitoring for common or exotic hazards.
- The first single-gas...

Honeywell Gasalert Microclip X3 without in built pump

Honeywell BW™ Solo

With out pump

Multigas Detector - for 4gases (H2S, O2, CO, LEL)
without in-built pump model: Gasalert Microclip X3

make: BW technologies,

Detector complete with specified sensor(s), stainless steel alligator clip and concussion-proof housing

Rechargeable battery

Wall outlet charging adaptor

Calibration/test cap and hose

Manual

Portable Gas Detector PG 100 D

PG-100-D (Diffusion Type)

Gas to be Detected: LPG

Range: 0-100% LEL

Sensor: Pallister Gas Sensor

The Plug-in Sensor provides a full year of warranted protection against hazardous gases

- The Portable Detector detects smallest gas leak on service line and joints
- Easy handling and programming with 3 keys and one key for power ON/OFF
- Easy software calibration by using front ke...

Single Gas Detection Device

Model no.:Dräger Pac 6500

•Single-Gas Detection Device

Model : Dräger

The robust Dräger Pac 6500 is your reliable companion under tough conditions.

The personal single-gas detection device measures CO, H₂S, SO₂ or O₂ quickly and precisely. Quick sensor response times and a

powerful battery also ensure safety.

Strong performance for maximum safety

You can rely on the Dräger Pac...

Industrial Hydrogen Gas Leak detector

MODEL NO.TS21I-CAT-H2

TrueSafe catalytic type Industrial Gas Leak detector for Hydrogen

ATEX & PESO Certified enclosure Gas Detection Method using Catalytic Combustion.

Detection Range: 0-100% of LEL.

Preset Alarm Levels : a) Low Alarm Level. b) High Alarm Level.

Auto Calibrated.

Response Time(< 2Sec.).

Catalytic sensor is used.

PFC Relay NO or NC O/P and It will be Selectable ...
