

BOMB BLANKET

The basic use of a bomb blanket with a safety ring is for covering a suspicious explosive object till the EOD team arrives to defuse it. Just in case the object explodes, the bomb blanket provides protection from shrapnel's and fragments which remain contained in it. It also provides protection from hand grenades, pipe bombs and fragments etc.

AV2 Group provides superior quality bomb blankets, made from the high-quality ballistic material. This Bomb blanket has a wide range of application. It can be used for shield operations as well as for mine clearance activities.

Another innovative use is to spread it on the floor and seat of a car to protect the occupants from mines.

The sizes can be customized as per the requirement of the end user. The most sought size is 1.5 meters X 1.5 meters with a safety circle: V50 450m/s

Material for bomb blanket is ballistic grade woven 100% Aramid fabric encased in heavy-duty Cordura. Image color and product color may vary.

STANDARD FEATURES
