

## BINOCULAR H2O 8x42mm Roof Prism

Powerful bright optics in a 100% waterproof package.

The ultimate on-the-water viewing companions. Even in the most challenging conditions, our ever-popular H2O™ binoculars stay on board and in your hands with a Soft Texture Grip. O-ring sealed and nitrogen purged, stunning views are assured no matter how wet they get. Updated lightweight aluminum chassis allows for ease and comfort viewing in the field. And to maximize light transmission and clarity, fully multicoated optics and premium quality BaK-4 prism glass are included. From the streamside to the Gulf Stream, the world looks better through the Bushnell® H2O.

- **FULLY MULTI-COATED, ALL GLASS OPTICS SYSTEM** An all glass, fully multi-coated optical system combined with BAK-4 Prisms enhances contrast, resolution, and light transmission.
- **NON-SLIP AGGRESSIVE TEXTURE FOR CONFIDENT GRIP AND RUBBER HOUSING FOR DROP PROTECTION** Updated ergonomics with non-slip soft touch rubber and easy grip texture. Easy grip runners where grip counts and texture along the sides and bridge of the binocular reduce the chance of dropping and give a confident in-hand feel....even with one hand.
- **UPDATED LIGHTWEIGHT ALUMINUM BODY CONSTRUCTION FOR UNMATCHED DURABILITY AND ALL-DAY COMFORT** Aluminum chassis adds confident durability that these binoculars can take the abuse of even the most grueling conditions. By reducing the weight of the body, you can use these binoculars comfortably all day...everyday.
- **IPX7 WATER PROOF CONSTRUCTION** All of the binoculars in the H2O line feature a waterproof and fogproof sealed housing that can withstand immersion in up to 1 meter of water for 30 minutes without taking on any water. These binoculars are ready for any adventure no matter how wet and wild it gets.
- **COMPACT FOLDING ROOF PRISM DESIGN** Folding Roof Prism design provides a more compact binocular for ease of use and convenient storage

- **ENHANCED CONTRAST AND RESOLUTION FOR CLEAR, RICH IMAGES** Fully Multi-Coated lenses enhance the outdoors with true to life color and contrast. BAK-4 prisms provide higher resolution and deliver more detail to your eyes.
- BaK-4 prisms for bright, clear, crisp viewing
- 100% waterproof: O-ring sealed and nitrogen purged for reliable, fog-free performance
- Non-slip rubber armor absorbs shock while providing a firm grip
- Twist-up eyecups
- Large center-focus knob for easy adjustments
- Longer eye relief

## THE ONLY THING WE DIDN'T DO IS TEACH THEM TO SWIM.

The ultimate on-the-water viewing companions, our every popular H20™ binoculars have been enhanced for 2012 with a Soft Texture Grip to keep them on board and in your hands in the most challenging conditions.

Just as before, they're O-ring sealed and nitrogen purged to ensure stunning views no matter how wet they get. To maximize light transmission and clarity, standard equipment includes multi-coated optics and premium quality BaK-4 prism glass. From the streamside to the Gulf Stream, the world simply looks better through the Bushnell® H20.
