ADOR INDUS CAM

The Ador Indus CAM Vehicle activated speed sign is specifically designed for campuses and industrial safety. This awareness display with camera solution can help to protect your employees and streets from over speed driving. This solution can be used both inside and outside your campus/industries.

Ador Indus cam helps to alert the drivers to their speeds and enforces when over-speed's. It will provide detailed data on where over speeding is occurred, which vehicle along with number plate, vehicle image, speed of the vehicle, speed limit, data and time etc.

This solution is a very powerful tool to aware and enforce speed limits and reinforce driver positive behavior towards road safety.

Main Features

This will work in both day & night conditions.

Ideal for Campus and community roads.

Set speed limit and violation speed limit.

It can be operational in all weather conditions.

Data can be accessed in both cloud and server storage

Ador in house software
