# MODEL : E-80

| Indicator / Parameter | Details |
|---|---|
| Usage Application | Industrial Use, Workplace Screening |
| Battery Type | Rechargeable via USB type |
| Weight | 252g |
| Delivery Time | 1–2 Business Days |

| Specifications | Indicators & Parameters |
|---|---|
| Sensor Type | High-Sensitivity Semiconductor Sensor |
| Accuracy | ±0.005–0.01% BAC |
| Preheat Time | 15 seconds |
| Response Time | <5 seconds |
| Use Frequency | Suitable for frequent testing, field deployment |
| Automatic Shutdown | 30 seconds after result display |
| Body Material | Durable ABS Plastic |
| Certification | NABL Accredited Calibration Certificate, ISO:9001 |

**USB rechargeable lithium battery**

Android charging port, recyclable charging, breaking the traditional battery power supply, without frequent battery replacement,

**Two detection modesMeet the needs of different occasions**

Precision mode - need to install blowpipe, more accurate detection (send 5 blowpipes).
Quick check - no need to blow, suitable for many people to use, quick check whether there is wine or not.

**Smart chip High precision sensor**

Equipped with intelligent chip and high sensitive sensor, the measurement is more accurate
