Indeed with innovative First Aid Kits, Consumer Health Care & Medical Disposables available in Add-On Safety & Surgicals Pvt. Ltd. Easy to use and not much hesitation for application with instant relief.

- Mr. Shankar M

Do not think because an accident hasn't happened to you that it can't happen.

- Ms. Sayali Shah

Take some time to learn First-Aid and CPR. It saves Lives and it works.

- Mr. Rashmin Shah

”

ABOUT US

Greetings from **Add-On Safety and Surgicals Pvt. Ltd.** Add-On Safety, which was started in the year 2009, now known as Add-On Safety and Surgicals Pvt. Ltd. We started our work as dealer for various safety appliances which was fulfilling the needs of end users. Gradually we were able to create some valuable products like **First-Aid kits and Barricading Tapes** and selling them throughout India to the dealers and whole sellers.

Meanwhile we created more product range along with our initial products like **Stretchers, Spill Kits, Boiler Suits, Eye Wash bottles, Medical Emergency Kits, Snake Rescue Kits, Life Jackets, Wind Socks, Wind Sock Stand.**

Our mission is to conquer and to reach every user of First-Aid kits like Schools, Colleges, Transport, Institutions, Sports Complex, Petrol Pumps, Manufacturing Units, Warehouses, Offices, Shops, Shopping Mall, Theaters and Co-Operative Societies and domestic users like families and individuals.

Our vision is to see protected Human Resource and Environment all over the world. For such vision we are prepared to make innovative and promising products that will speak itself for gaining our credibility from every customer we deal with.

Thank you.

For Add-On Safety and Surgicals Pvt. Ltd.

Rashmin Shah
Founder

MEDICAL EMERGENCY RESQ KITS

In a medical emergency, having the right tools and supplies can make a big difference. This is why RESQ medical emergency kits are becoming increasingly popular as a way to prepare for unexpected emergencies.

Available In 6ft & 4ft

SNAKE CATCHING STICK

A snake catching stick is a long, sturdy tool with a gripper at the end that is designed to safely and securely grab a snake without causing harm to either the snake or the handler. The gripper is typically made of a strong but lightweight material such as aluminum or plastic, and is designed to be gentle on the snake's body.

Available In 6ft & 4ft

SNAKE RESCUE HOOK

A snake rescue hook is a long, slender tool with a hook at the end that is specifically designed to safely handle snakes. The hook allows you to gently pick up the snake without harming it or risking getting bitten.

SNAKE CATCHING BAG

A snake catching bag is a durable, lightweight bag made from a material that is strong enough to contain the snake but also gentle on its body. The bag typically has a drawstring or zipper closure at one end, which can be used to secure the snake inside once it has been caught.

AMBU BAG

Description

The Ambu Oval Silicone resuscitator has been designed for the manual ventilation of neonates through to adults. It is a reusable silicone resuscitator.

Features

- Reduced Fatigue During Manual Ventilation
- Free positioning of the bag
- Easy to Clean and Sterilize
- Low Weight

Description	Adult	Pediatric	Neonate
Stroke volumes Patients weight	700 ml	450 ml	150 ml
Patients Weight	> 30 kg (10 years)	10-30 kg (1-10 yrs)	< 10 kg (1 year)
Total bag volume	1475 ml	635 ml	220ml
Dimensions (Length x Diameter)	210mm x 120mm (8.26 in x 4.72 in)	140mm x 90mm (5.51 in x 3.54 in)	140mm x 70mm (5.51 in x 2.75 in)
Oxygen reservoir volume	2600 ml	2600 ml	600 ml
Patient connector Outside	22 mm (ISO)		
Patient connector Inside	15 mm (ISO)		
Expiratory connector (for PEEP valve attachment)	Not measurable		
Storage Temperature	-18°C to 50°C (-4° F to 122° F) at humidity between 15% & 95%		
	-40°C to 60°C (-4° F to 140° F) at humidity between 40% & 95%		

CPR MASK

CPR MASK (TYPE SILICONE)

High-quality silicone material that ensures a secure and comfortable fit on the patient's face. The soft and pliable silicone creates an airtight seal, preventing the risk of contamination and ensuring efficient rescue breaths.

- ▶ CPR is known as Cardiopulmonary resuscitation.
- ▶ Emergency procedure combines chest compression and artificial ventilation to preserve brain function in cardiac arrest, indicated for unresponsive individuals with abnormal breathing.
- ▶ Oxygen inlet for the therapy of oxygen supply in an emergency.
- ▶ 15mm OD connector to use with the manual resuscitator.
- ▶ Each pcs packed in a compact shell case, PVC glove, Large carried case, clip on the back of case.
- ▶ Latex free & Single use.

DEFIBRILLATOR

A defibrillator is a device that delivers a high-energy electric shock to the heart to restore a normal heartbeat. It's a treatment for life-threatening cardiac arrhythmias, such as ventricular fibrillation and non-perfusing ventricular tachycardia.

Therapy

Adult defibrillation: peak current 32 A (150 J nominal into a 50-ohm load) Pediatric defibrillation with optional FRx Infant/Child Key installed: peak current 19 A (50 J nominal into 50-ohm load).

Protocol

Device follows preconfigured settings; defibrillation and CPR protocol can be customized using HeartStart Event Review software.

Sensitivity/specificity

Meets AAMI DF80 guidelines and AHA recommendations for adult defibrillation

Size

6 cm x 18 cm x 22 cm (2.4" x 7.1" x 8.9") DxHxW

Weight With battery and pads case: 1.5 kg (3.5 lbs.)

- Item number(s) Standard: M5070A
- Aviation: 989803139301 (TSO C-142-U.S. only)
- Type 9 Volt DC, 4.2 Ah, lithium manganese dioxide,
- disposable long-life primary cell
- Capacity Minimum 200 shocks or 4 hours of operating time
- (EN 60601-2-4:2003)

Temperature Operating/Standby: 32° – 122° F (0° – 50° C)

MULTI PURPOSE FIRST AID KITS

AOSSPL has done deep research of available products and then created valuable First-Aid kits for growing market. All Products are meeting set standards and covering almost all areas of it's own need. The Specific Kits are designed as per given contents by statutory authorities and Factories Act 1948.

Presenting Multi Purpose First-Aid kit useful at home, Corporate Offices and Workplaces. With different combination and budget. Shelf life 2 to 3 years

At AOSSPL, we are proud to introduce our new range of Industrial Boiler Suits, crafted to deliver maximum protection, durability, and comfort for professionals working in challenging environments. Our Boiler Suits are designed using premium quality fabrics, precision stitching, and ergonomic patterns to ensure ease of movement while maintaining complete safety coverage. Whether you work in manufacturing, maintenance, oil & gas, or construction industries-our Boiler Suits are made to perform under pressure.

Boiler Suit – 100% Pure Cotton

Model: Cotone Comfort

The boiler suit is made from premium drill cloth crafted from 100% cotton material, offering superior comfort, breathability, and durability. Its strong weave provides excellent protection while maintaining flexibility for ease of movement, making it ideal for industrial and workshop environments. Designed to withstand daily wear and tear, this cotton drill boiler suit ensures long-lasting performance and a professional appearance.

Features:

- Closure: High-quality, two-way zipper for easy wear
- Pockets: Multiple storage pockets, including: Front pockets with flap and Velcro, Side pockets with piping, Back pockets, Knee pocket, Sleeve pocket
- Visibility: 2" reflective tapes for increased visibility
- Waist: Elasticized waistband
- Buttons: Nickel-free snap buttons
- Collar: One-piece top-stitched collar
- Sleeves: Full sleeves with snap closure
- Finish: 100% pre-shrunk, colorfast, and extra soft for comfortable wearing

GSM Available:

- 180 | 200 | 220 | 240 | 260 and customised

Reflective Tape:

Applications:

Automobile & Engineering | Construction & Civil Work | Manufacturing & Fabrication | Oil & Gas Electrical & Maintenance | Warehousing & Logistics | Agriculture & Farming

Colors Available:

Boiler Suit – Polyester Cotton

Model: Cotone Pro

The Polyester Cotton Boiler Suit is designed to provide the perfect balance of durability, comfort, and practicality. Made from a high-quality blend of polyester and cotton, this fabric combines the strength and wrinkle-resistance of polyester with the softness and breathability of cotton, ensuring long-lasting wear even in demanding work environments.

Features:

- Closure: High-quality, two-way zipper for easy wear
- Pockets: Multiple pockets for storage, including: Front pockets with flap and Velcro, Side pockets with piping, Back pockets, Knee pocket, Sleeve pocket
- Visibility: 2" reflective tapes for increased visibility
- Waist: Elasticized waistband

Boiler Suit – Polyester Viscose

Model: Cotone Plus

The Polyester Viscose Boiler Suit is engineered for comfort, durability, and a professional appearance. Crafted from a premium blend of polyester and viscose, this fabric offers exceptional strength, smooth texture, and a soft drape, ensuring both comfort and a polished look throughout the workday. The polyester component enhances durability, wrinkle resistance, and color retention, while viscose adds breathability and moisture absorption for all-day comfort.

Features:

- Fabric Construction: polyester viscose (65/35) blend for durability and comfort
- Closure: High-quality, two-way zipper for easy wear
- Pockets: Multiple storage pockets, including: Front pockets with flap and Velcro, Side pockets with piping, Back pockets, Knee pocket, Sleeve pocket
- Visibility: 2" reflective tapes for increased visibility
- Waist: Elasticized waistband

Boiler Suit – FR (Flame Retardant)

Model: FlamShield

Our Flame Retardant (FR) Boiler Suits are engineered to provide superior protection against heat, flames, and molten splash. Designed for comfort, durability, and safety, they are ideal for workers exposed to thermal hazards in industries like oil & gas, welding, foundries and manufacturing.

Features:

- Made from 100% cotton fabric treated with flame-retardant chemicals
- Offers protection against heat, flash fires, and sparks
- Durable double-stitched seams for added strength
- Front concealed zipper with flap closure for enhanced safety
- Multiple pockets for tools and accessories
- Comfortable, breathable, and washable up to multiple industrial cycles

GSM Available:

- 180 | 200 | 220 | 240 | 260 and customised

Reflective Tape:

Certifications:

- EN ISO 11612 (Protection against heat and flame)
- EN ISO 11611 (Protective clothing for welding and allied processes)
- EN ISO 13688 (Protective clothing - General Requirements)

Applications:

Oil & Gas | Welding | Foundries
Petrochemical | Power Plants

Colors Available:

Navy Blue | Orange | Royal Blue | Yellow | Red | Beige

Boiler Suit – IFR (Inherently Flame Retardant)

Model: FlareSafe

The Inherently Flame Retardant (IFR) Boiler Suit provides permanent protection that never washes out. Crafted from advanced IFR fabrics, it ensures lifelong flame resistance while offering exceptional comfort and breathability. Designed for professionals requiring long-term, reliable thermal protection.

Features:

- Made from 93% Meta-Aramid, 5% Para-Aramid and 2% Anti-Static Fibers
- Flame resistance is built into the fiber-won't diminish with washing or wear
- Lightweight yet strong for all-day comfort
- Antistatic and arc-resistant properties available on request
- Ergonomic design for better mobility
- Available in various colors and reflective tape options

GSM Available:

- 150 | 180 | 200 and customised

Reflective Tape:

Certifications:

- EN ISO 11612 (Protection against heat and flame)
- EN ISO 11611 (Protective clothing for welding and allied processes)
- EN ISO 13688 (Protective clothing - General Requirements)

Oil & Gas | Welding | Foundries
Petrochemical | Power Plants

Colors Available:

Navy Blue | Orange | Royal Blue | Yellow | Red |
Beige

Boiler Suit – Modacrylic

Model: FireGard

The Inherently Flame Retardant (IFR) Boiler Suit provides permanent protection that never washes out. Crafted from advanced IFR fabrics, it ensures lifelong flame resistance while offering exceptional comfort and breathability. Designed for professionals requiring long-term, reliable thermal protection.

Features:

- 55% modacrylic, 43% cotton, 2% anti-static Para-aramid (optional): Included in some high-performance blends
- The fibers are inherently flame-resistant, meaning the protective properties are part of the fabric itself and will not wash out.
- The 2% anti-static fiber prevents the buildup of static electricity, which could cause sparks in flammable environments.
- Flame resistance is built into the fiber-won't diminish with washing or wear
- Lightweight yet strong for all-day comfort

GSM Available:

- 150 | 180 | 200 and customised

Reflective Tape:

Certifications:

- EN ISO 11612 (Protection against heat and flame)
- EN ISO 11611 (Protective clothing for welding and allied processes)
- EN ISO 13688 (Protective clothing - General Requirements)

Applications:

Oil & Gas | Welding | Foundries
Petrochemical | Power Plants

Colors Available:

Navy Blue | Orange | Royal Blue | Yellow | Red
Beige

SPINE BOARD STRETCHER

(Model: RS-SB)

Product Features:

Our Spine Board is CE certified, MRI compatible, having long life and homogeneity with XRay. It is light in weight and resistant to bumps, corrosion and cracks. This spine board can withstand up to 190 kgs with every handling and lifting of the board. We also provide 3 belts for tying and head immobilizer on demand along with the Spine Board.

Product Specification:

- Description: HMHDPE plastic molded stretcher for immobilization of patient.
- Raw material: Virgin HMHDPE granules from Lotrene having grade TR571 for Spine Board and Nylon for Belt.
- Colour: Orange
- Total Article Weight: 7.20kgs
- Article Length: 1823mm
- Article Width: 448mm
- Article Thickness: 61mm
- Load Carrying Capacity: 190kgs

STRETCHER

FOLDABLE STRETCHER

Model: RS-FS

Product Features:

- Made in India
- Heavy duty imperial vinyl coated fabric
- Can be disinfected and cleaned for its reuse purpose
- Made from branded aluminium poles
- PVC grip specially moulded for nice grip
- Packed in Easy Carry Bag

Product Specification:

- Aluminium Pole 32mm OD and 28mm ID
- 550 GSM, Vinyl coated synthetic fabric
- Two heavy duty nylon belts attached with the stretcher
- Heavy duty buckles which are safe and easily attachable and detachable
- Heavy duty PVC Grips
- Two side expandable bars for Strength and proper stretch while folding, unfolding
- Aluminium Bar stands with 25.4mm width and 4.76mm thick at all four sides of stretcher
- Length: Unfolded- 210*53*13cm (L*W*H)
2 Folded- 102.87*17*8cm (L*W*H)
4 Folded size 56cm x 19cm x 18cm (L*W*H)
Unfolded 205 x 50 x 8cm
- Self Weight: 4.8kgs
- Gross Weight: 5.1 kgs

Available In

2 Fold - MS Powder Coated | 2 Fold - MS Zinc Coated | 2 Fold - Aluminium
4 Fold - MS Powder Coated | 4 Fold - MS Zinc Coated | 4 Fold - Aluminium

CARRY SHEET STRETCHER

(Model: RS-CS)

Product Features:

Carry sheets enable emergency teams to transport a patient to a safe location quickly and with minimal effort, while helping to minimise the risk of injury to the operators.

These sheets are a vital aid in both the evacuation of nonambulant patients from hazardous situations and the transfer of patients both on and off ambulance stretchers.

The Carry Sheet can be rolled or folded to facilitate easy movement of the patient onto the sheet and can be used in confined spaces.

Easy to clean and folds away for compact storage. Supplied with a storage bag.

Product Specification:

- Material: Heavy duty Rip stop PVC Vinyl
- Handles: 10 hand loops with solid grips
- Size: 210*89cm (L*W)
- Load bearing capacity: 139kgs
- Article weight: 1kg
- Available in single as well as double layer heavy duty cloth
- Customisation: Body cover or blanket can be attached on requirement
- Colours: Orange

NEIL ROBERTSON STRETCHER

(Model: RS-NR)

Product Features:

NeilRobertson Stretcher is designed for removing an injured person from spaces wherein access, doors or hatches are too small to permit the use of regular stretchers.

The neil Roberson stretcher is made of flexible semi rigid canvas and can be folded easily when not in use or during accessing small places.

The stretcher is provided with strong straps which when firmly wrapped around the victim, give strong support to hold the person with almost negligible movement with respect to stretcher which is very important when rescuing or transferring injured person.

Product Specification:

- Material: Made from heavy duty semi-rigid Canvas Cloth, with teak wood frame
- Packing size: 166 x 16 x 16 cm
- Frame: Teakwood
- Outer material: Canvas
- Load Limit: 120kg
- Lift type: Horizontal or Vertically

SCOOP STRETCHER

(Model: RS-SS)

Product Features:

The scoop stretcher is a device used specifically for moving injured people. It is ideal for carrying casualties with possible spinal injuries.

A scoop stretcher has a structure that can be split vertically into two parts, with shaped 'blades' towards the centre which can be brought together underneath a patient. The two halves are placed separately either side of the patient, and then brought together until securing clips at the top and bottom both engage.

Scoop stretchers reduce the chance of undesirable movement of injured areas during transfer of a trauma patient, as they maintain the patient in a supine alignment during transfer to a stretcher, vacuum mattress or long spine board.

Product Specification:

- Material used: Aluminium
- Length: 120cms (Folded) /166cms (Min) /201cms (Max)
- Width: 43inches
- Height: 4cms
- Weight: 9.7kgs
- Load Carrying Capacity: 159kgs

Spill Kits are essential for all industries as Spilling is common hazard in every industry. Add-on safety has introduced LiquiZorb Spill kits as per set standards.

LiquiZorb is for different types of spills and are available in various capacities from 15 to 360 Litres, they are as fol lows:

Universal Spill Kits: for the clean-up of non-aggressive or non-hazardous liquid spills. Can be used for all purpose of cleanup activities like Oil, Chemical, Bodily fluid etc.

Oil-Spill Kits, for the clean-up of grease and oil-based liquids.

Chemical Spill Kits, for the clean-up of aggressive or hazardous liquids.

Acid and Alkaline kits, for the clean-up of highly hazardous Acids and Alkaline.

Mercury Spill Kit for the cleanup of hazardous mercury.

SPILL KITS

Application: 15L Bag LZ15 O/U/C

Contents

- Matty Cloth Bag
- 15 Absorbent Pads
- 1 Absorbent Sock
- 1 Safety Goggle
- 1 Nitrile Gloves
- 2 Disposable Bag with 2 Ties

Application 30L Bag LZ30 O/U/C

Contents

- Matty Cloth Bag
- 25 Absorbent Pads
- 3 Absorbent Socks
- 2 Disposable Bags and Ties
- 1 Safety Goggle
- 1 Nitrile Gloves Pair

Application: 50L Bag LZ50 O/U/C

Contents

- Matty Cloth Bag
- 30 Absorbent Pads
- 3 Absorbent Socks
- 2 Absorbent Pillows
- 3 Disposable Bags and Ties
- 1 Safety Goggle
- 1 Nitrile Gloves

Application: 80L Drum LZ80 O/U/C

Contents

- 80L Drum
- 40 Absorbent Pads
- 3 Absorbent Socks
- 3 Absorbent pillows
- 3 Disposable Bags and Ties
- 1 Safety Goggle
- 1 Nitrile Gloves

Application: 15L Acid/Alkali Spill Kit LZ 15 A

Contents

- 15 Chemical Absorbent Pads
- 1 Chemical Absorbent Sock
- 1 kg Acid/Alkali Neutralizer
- 2 Disposable Bags with 2 Ties
- 1 Matty Cloth Bag

Application: 120L Wheeled Dust Bin LZ 120 O/U/C

Contents

- 120L Wheeled Bin
- 60 Absorbent Pads
- 5 Absorbent Socks
- 4 Absorbent Pillows
- 5 Disposable Bags and Ties
- 1 Safety Goggle
- 1 Nitrile Gloves
- Caution Tape

Application: 240L Wheeled Dust Bin LZ 240 O/U/C

Contents

- 240L Wheeled Bin
- 150 Absorbent Pads
- 7 Absorbent Socks
- 10 Absorbent Pillows
- 12 Disposable Bags and Ties
- 1 Safety Goggle
- 1 Nitrile Gloves
- Caution Tape

Application: LZ Mercury Spill Kit

Contents

- 2 nos of Universal Absorbent Pads
- 1 Pair of Chemical Resistant Gloves
- 1 Dust Mask
- 1 Pair of Booties
- 1 syringe
- 1 waste Collection Bag
- 1 Bucket / Pail

Swim Care products are basically connected with our Emergency Medical Kits as they are regularly demanded by rescue operation teams and organisation. Swim Care products are mainly looking after Life Jackets and Life Buoy Rings. Ute Jackets primarily available In Class III category where CE certification suffle all the need of approvals.

MODEL: Floater (for Child)

- Personal Floatation Device
- Buoyancy - 50N
- TYPE III PFD
- User Weight – upto 50 Kilograms
- Style - User age upto 15 years
- Water Repellent Fabric
- 100% PE Foam
- Quick Release Buckle
- Standard Belts for Secure Fits
- High Visibility Colour
- IRS Approved Non-Clog Whistle
- Retro Reflective Tape Panels

MODEL: Coastal

- Personal Floatation Device
- Buoyancy - 100N
- TYPE III PFD
- User Age - Adult
- User Weight - 80 to 100 Kilograms
- Style - Free Size
- Strong Nylon Fabric
- 100% PE Foam
- Quick Release Buckle
- Standard Belts for Secure Fits
- High Visibility Colour
- IRS Approved Non-Clog Whistle
- CE Certified

LIFE JACKET

MODEL: Oceanic

- Personal Floatation Device
- Buoyancy - 140N
- TYPE III PFD
- User Age - 18 to 60 years
- User Weight - 40 to 140 Kilograms
- Style - Free Size
- Water Repellent Fabric
- 10m x 3 ply foam thickness
- 100% PE Foam
- Quick Release Buckle
- Standard Belts for Secure Fits
- High Visibility Colour
- IRS Approved Non-Clog Whistle
- Solas Approved Tape
- CE certified & Solas compliances

MODEL: Aquatic

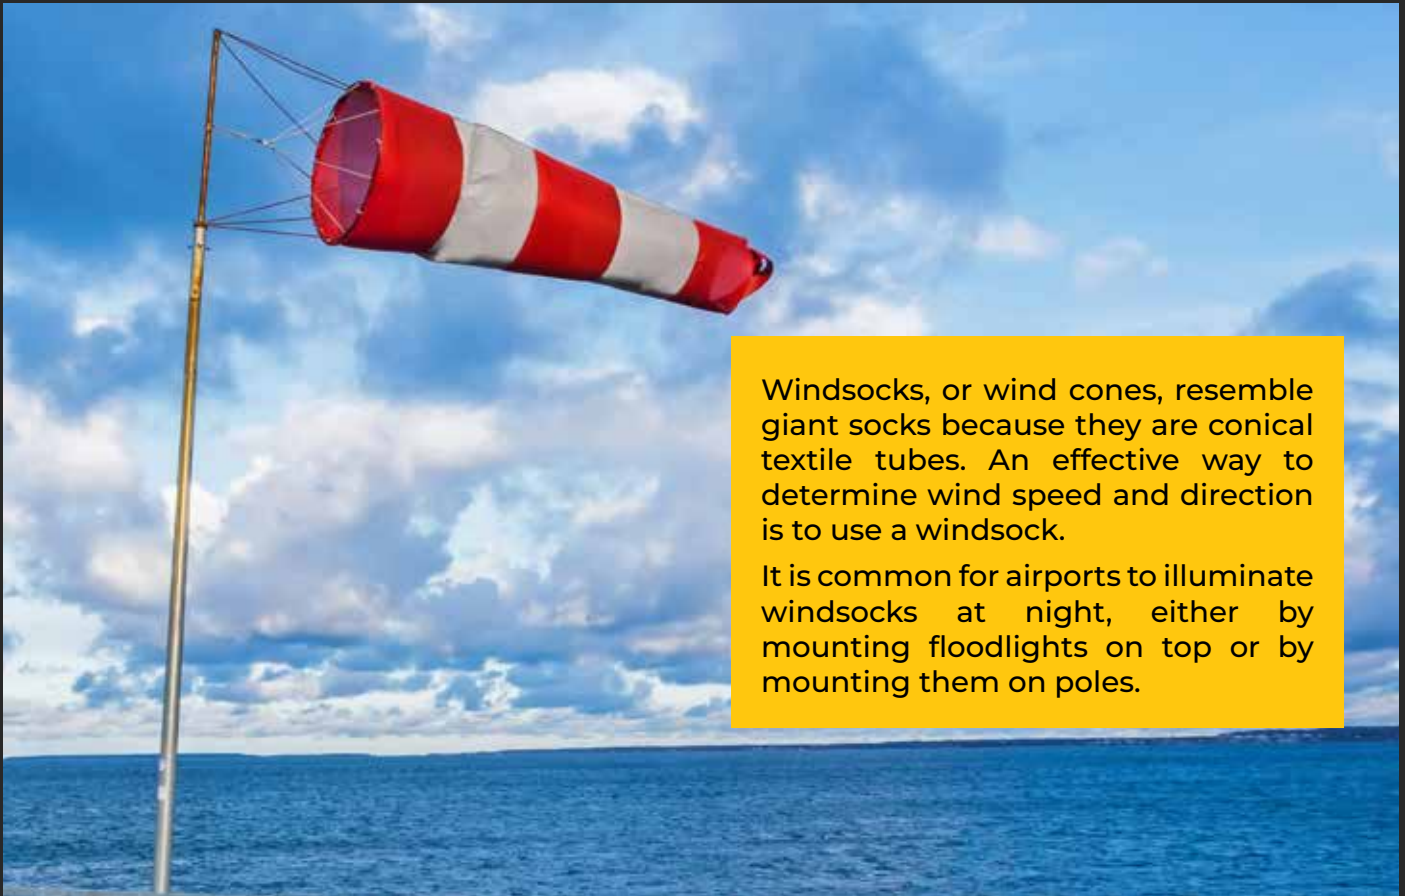

- Personal Floatation Device
- Buoyancy - 140N
- TYPE III PFD
- User Age - 18 to 60 years
- User Weight - 40 to 140 Kilograms
- Style - Free Size
- Water Repellent Fabric
- 100% PE Foam
- Quick Release Buckle
- Standard Belts for Secure Fits
- High Visibility Colour
- IRS Approved Non-Clog Whistle
- Solas approved high visibility reflective Tape Panels
- Non Turnable
- CE Certified & As per SOLAS compliances

MODEL: Lifebuoy Ring

- Weight: 2.5kg+
- Outside Diameter: Not less than 72 cm
- Inside Diameter: Not More than 43 Cm
- Outside Material: HDPE Plastic
- Inside Material: Rigid Foam
- Color: Orange
- Lifeline Rope: 10mm, White color
- Reflective Tape : 50mm W*40no
- Shelf Life: 5 years
- Standard: SOLAS Approved
- Certification: CE
- Buoyance: 16.5N

Windssocks, or wind cones, resemble giant socks because they are conical textile tubes. An effective way to determine wind speed and direction is to use a windssock.

It is common for airports to illuminate windssocks at night, either by mounting floodlights on top or by mounting them on poles.

Specifications:

Material:

Polyurethane Coated Nylon Fabric
(Water Repellent, Rubberized Nylon Fabric)

Color:

Red and White, Fluorescent Color, (Orange & Green)

Installation:

On roof top of any Industry, Institution or complex

Reflective Tape:

Optional with Polyester or Glass
Size: 72" x 37" x 20"

Available in:

- Single Layer (Red & White)
- Double Layer (Red & White)
- Rubberised (Red & White)
- Florescent (Orange & Green)

WindSocks Stand Available in:

- ▶ MS WindSocks Stand
- ▶ GI WindSocks Stand

EYE WASH BOTTLE

An immediate and effective tool to decontaminate or clean the damaged eyes due to injuries caused by insects, chemical splash, dust etc. Clean water should be filled while using this eyewash bottle.

Specifications:

Product Features:

- Emergency Eye wash Bottle, quantity 500ml
- Portable, lightweight and wall mountable soft and effective
- Eye wash can be delivered in seconds even if the person is Lying down
- Available with stand

Material:

Plastic (HDPE, Virgin Material)

CAUTION AND WARNING TAPES

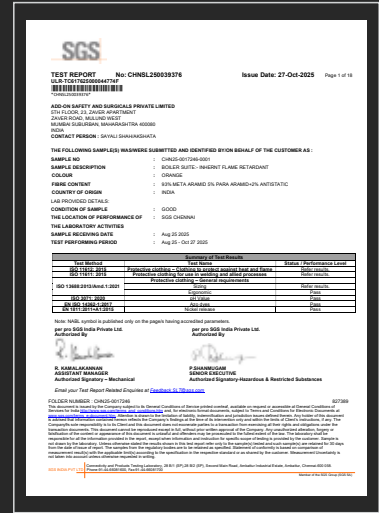

Safety Industry has accepted our Caution Tape as premium and quality product throughout India. From Raw Material to UV resistant Printing Ink, and accuracy in length is main feature of our different caution tapes as per color codes given by OSHA. Taking care of awareness for the Environment we have introduce Bio Degradable Caution Tape first time in India.

We are also manufacturing Underground Warning Tapes for different type of Underground pipeline/Cable work.
