Full-face coverage against splashes and debris.

Easy visor replacement mechanism.

Certification:

EN 166:2001, IS 8521-1:2022, ANSI Z87.1-2020

Description

The KARAM ES51 Face Shield is designed to provide superior protection and clarity. Its optical class 1 visor ensures clear and undistorted vision, while the removable visor allows for easy replacement, enhancing its longevity. Offering a wide field of view, this face shield (<https://karamonline.com/face-protection/welding-and-face-shield>) is ideal for applications requiring comprehensive front and side impact protection. The ES51 can be seamlessly mounted onto KARAM safety helmets (<https://karamonline.com/head-protection/safety-helmets>), including Shelmet, Sheltek, and Shelblast, enabling a versatile and secure fit.

Warranty: 1 year from the date of invoice against any manufacturing defects.
