Description

When clarity and protection need to go hand-in-hand, the ES 71 Face Shield delivers. This model stands out with its high-transparency visor and comfort-padded headgear, offering a user-friendly solution for daily tasks in labs, factories, and workshops. Designed with anti-fog and anti-scratch features, it keeps your vision clear under pressure. Easy to wear, easy to adjust, and easier to trust—the ES 71 is safety that works as hard as you do.

Warranty: 1 year from the date of invoice against any manufacturing defects.

Ideal for use

Grinding and
Welding
